

If it's important enough to frame, it's important enough to protect . . . **forever.**

With Artcare™ Archival Matboard

With Other Archival Matboard

Just like UV glass protects art and photos from damaging sunlight, Artcare™ protects them from harmful air pollution.

Over time, pollution seeps into frames and causes images to fade, discolor and even deteriorate.

Artcare matboards contain millions of microscopic minerals called “zeolites” that proactively trap and neutralize air pollution.

Artcare stops air pollution in its tracks and keeps it away from your framed photos, art and documents. The result? Framed pieces that stay forever young.

ARTCARE™

AGE DEFYING MATBOARD TECHNOLOGY

Artcare provides the most powerful conservation protection in framing. Nothing else compares.
