## NIELSEN ALUMINUM MOULDING

# FEATURES & BENEFITS

### STRENGTH

**No warp or twist** so assembling is easy

No finger joins or organic flaws, so **every inch is usable**

**Impervious to heat and moisture** - the ideal choice for warm weather locales and humid settings

**Mechanical corner joins are more secure than glue**, so Nielsen corners will not split or break when housing a heavy frame package

**Aluminum is inert and will not off gas or rust** - no threat to precious art and no risk of unsightly corrosion

**Durable anodized and painted finishes** are chip & scratch resistant

### EASY TO USE

**Corner joins are easy to adjust** with just a screwdriver - no need to dismantle frame package

**Hanging hardware and wire can easily be adjusted** to correct hanging height of the framed image - no more "oops!" nail holes in the wall! Especially convenient when hanging groupings of frames

Anodized aluminum is **100% recyclable**

### IN STYLE

Nielsen Moulding is always in style - elegant, minimal, and sleek, it is at home in any decor.

### 100% MADE IN AMERICA

**Start to finish** US domestic manufacturer

**Quality control** at all steps of production

**Fast order turnaround** and short transit times

**Supporting American manufacturing and workers**
